SEREGEN SERIES FULLY AUTOMATIC 8-10-12-16-20KW AIR-COOLED GENERATORS

FEATURES

Fully Automatic – Advanced electronics will detect a utility power outage and automatically start the generator whether you are home or away.

Flexible Placement – Tested against tough National Fire Protection Agency standards, Ruud 8-10-12-16-20kW+ standby generators can be placed as close as 18” from the home providing more placement options in your yard — perfect for tight lot lines.

RELIABLE ENGINE POWER – Powered by a premium **Briggs & Stratton engine**, our 8-12kW standby generators feature a newly designed engine for standby applications for improved reliability, performance and durability. Our 10-16-20kW standby generators are **powered by commercial-grade Vanguard™ engines** that are design-engineered to dependably take on the most demanding jobs.

Durable Enclosure – Rust-resistant, Galvanneal steel enclosures are made from the same materials used in the automotive industry.

Quick Response – Automatically powers your home in seconds after sensing a power outage.

3 or 4-Year Limited Parts Warranty – We stand behind our warranty and make it easy for our customers to work with us.
