

FOUR EASY STEPS TO A PROFITABLE INSTALL

TRAINING SESSIONS

Enhance your knowledge and your profits by joining us at one of these beneficial training sessions covering the four easy steps to a profitable installation! See dates, times and locations below...

STEP 1: EQUIPMENT SELECTION

A hands on session on the use of www.ahridirectory.org

STEP 2: LINE SIZING AND BRAZING

Discover the proper techniques to insure a clean and efficient refrigerant circuit .

STEP 3: AIRFLOW AND CHARGING VERIFICATION

Covering the simple and quick checks that prevent call backs .

STEP 4: NEW CONTROLS

Covering the things a contractor needs to know about new controls for gas and heat pumps .

All preregistered attendees will receive a FREE Workbook and Sub Cooling and Sub Heat Calculating Tool (a combined value of \$230.00!). Register now as space is limited! Class sizes are being kept small to increase effectiveness. The cost for this 1 day session is only \$50.00.
