

# WE'VE GOT THE POWER!

## POWERSMART INVERTOR GENERATORS

QUIET • EFFICIENT • PORTABLE

Portable generators help protect your family and possessions during a power outage. They are also useful when camping, on the job site or anywhere you need power. The best time to buy a generator is before you need one. Briggs & Stratton portable generators are designed to provide power for home, work or play.

### POWERSMART SERIES™ TECHNOLOGY

Inverter technology produces smoother power that's safe for sensitive electronics

### PERFECT FOR QUIET CAMPING

Up to 80% quieter than traditional camping generators

### LCD STATSTATION™

The LCD screen shows the amount of power being used, the total unit hours as well as maintenance reminders such as oil change, air filter change, and spark plug change

### USB PORT

Charge your portable electronics to stay connected

### PARALLEL CONNECTOR PORT

Connect two units together for more power

### 2 PERSON CARRY AND LUGGAGE-STYLE TELESCOPING HANDLES

The H-beam handle on top of the unit makes it easy for 2 people to carry the unit. The telescoping handle makes for easy, convenient maneuverability to pull the unit from one place to another

### CONVENIENT FUEL SIGHT GAUGE

McCalls Part #	Starting Watts	Intro Price
30553 - P2000 Series	2000	\$634.15
30545 - P3000 Series	3000	\$1,278.02
