Compact Thermal Imaging System

Part# FLIR C2 **\$499.00**

The FLIR C2 is the world's first full-featured, pocket-sized thermal camera designed for a wide range of building and electrical/mechanical applications. Keep it on you so you're ready anytime to find hidden hotspots, energy waste, structural defects, plumbing clogs, HVAC issues, and other problems. FLIR C2 makes it more affordable than ever to add the powerful advantage of thermal imaging.

FLIR C2 FEATURES Radiometric

Fully radiometric images lets you measure any point on the image in post analysis on scenes between -10°C and 150°C

Touch Screen

Brilliant 3" intuitive touch screen with auto orientation for easy viewing

Spotlight

Built-in LED spotlight you can use as a flashlight and for photo illumination

FLIR Tools

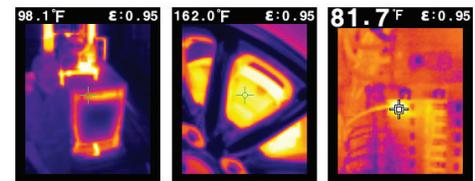

Includes FLIR Tools professional reporting software for Mac or PC

Streaming Video

Streaming video via FLIR Tools, a feature not usually available on low-cost systems

Warranty

FLIR's unique 2-10 warranty, covering parts and labor for two years and the detector for ten

Boiler Brake Rotor Warm Breaker

Spot Thermal Camera

Part# TG165 **\$349.99**

The FLIR TG165 Spot Thermal Cameras bridge the gap between single spot infrared thermometers and FLIR's legendary thermal cameras. Equipped with FLIR's exclusive Lepton® micro thermal sensor, these cameras let you see the heat so you know exactly where to target the measurement spot. Easily find unseen hot and cold spots for instant troubleshooting, and store images and data to show customers and include in reports.

FLIR TG165 FEATURES Thermal Imaging

FLIR's Innovative Lepton® IR Imaging Engine

Safety

24:1 spot size ratio for safer distance measuring

Easy operation

Intuitive to operate with no special training required

Save Images

Easily save images and data for documentation

Rugged

Built to withstand a 2 meter drop

Warranty

Covered by FLIR's exclusive 2-10 warranty
